WellFlorida Scholarship Awarded to Two Community College Students

Ocala and Gainesville, Florida—Hillary Lee and Carollyn Catanzaro are one step closer to their goal of attaining a nursing degree with the help of the WellFlorida Council. Each received a \$500 scholarship from WellFlorida. The scholarship encourages students to go into a health-related field. Students must have a GPA of 3.0 and demonstrate financial need to be eligible for the scholarship.

"I chose to go into nursing because it is such a diverse field and nurses can really impact someone's life," said Catanzaro, who was selected by the Health Sciences Program at SFCC to receive the scholarship.

Lee, who received her AA degree in Dec. 2005 and plans to work toward a Bachelor's degree in Nursing, was selected to be the recipient of the scholarship by the Registered Nursing Program at Lake City Community College.

"WellFlorida's contribution is allowing me to continue my education and fulfill my goals in life," said Lee.

WellFlorida, a private nonprofit, provides support and services that help improve and maintain the health of Florida families, residents and businesses. WellFlorida scholarships support the health sciences fields through education at the community college level.
