North Central Florida County Health Profiles is produced by WellFlorida Council.
More detailed county health data is available at **www.wellflorida.org**.

SOURCES/NOTES   MORE DATA

This County Health Profile provides a snapshot of the individual counties and the region as a whole that WellFlorida serves. WellFlorida is engaged as a partner throughout North Central Florida in various Community Health Assessment (CHA) and Community Health Improvement Plan (CHIP) efforts to address key health issues, some of which are highlighted in this profile. CHA and CHIP processes allow communities to fully understand their most pressing health issues and prescribe comprehensive, community-based plans to attack them head on. For more information on CHA and CHIP processes, please contact WellFlorida.

WellFlorida Council
Working Together for Healthy Communities

WellFlorida provides annual county profiles for North Central Florida as a public service. This profile is a snapshot of our region and helps readers understand, at a glance, our health status and how counties compare to each other, their region and the state. County profiles can also be used as a starting point that leads to further research, public awareness activities, or new programs and strategies to improve health in our region.

WellFlorida is the state designated local health council for North Central Florida and specializes in health consultancy for clients and projects throughout the state.

What is WellFlorida doing to improve health outcomes in our region?

▪ **The Health Insurance Marketplace Navigators in North Central Florida, managed by WellFlorida Council, help residents and small businesses explore insurance options that meet their needs and budgets. Navigators assist with eligibility and enrollment forms, and provide language translation and hearing impaired services to help people enroll. Learn more at www.NCFNavigators.org.**

▪ **As the lead agency for two Healthy Start coalitions and North Central Florida Ryan White CARE Program, WellFlorida touches thousands of lives by overseeing a regional network of maternal and infant care and HIV/AIDS services.**

▪ **To address lack of access to healthcare information for rural residents and providers, WellFlorida's CommunityHealth IT Initiative launched a personal health record and robust health information exchange called MyHealthStory. MyHealthStory is free to consumers and affordably priced for providers to share healthcare information among patients and providers. Learn more at My-Health-Story.org.**

▪ **WellFlorida assesses health needs and resources regionally and statewide. Our needs assessments, program evaluations and county health profiles keep citizens, and local and state health policy decision makers informed.**
