### List of Tables

Table 1. County Zip Codes for Hernando County, 2022.	.21
Table 2. Total Population and Projected Population by Gender, Hernando County and Florida, 2010-2045.	22
Table 3. Estimates of Population by City, Hernando County and Florida, April 1, 2021	.23
Table 4. Total Population by Race for Hernando County Compared to Florida, 2020	.25
Table 5. Total Estimated Population by Race, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020	
Table 6. Total Estimated Population by Ethnicity, by Zip Code Tabulation Area (ZCTA), Hernando County a	ınd
Table 7. Total Estimated Population by Gender, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020	
Table 8. Total Estimated Population by Age Group, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020	
Table 9. Total Estimated Population by Selected Age Groups and Gender, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020.	.37
Table 10. Total Estimated White Population by Selected Age Groups and Gender, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020.	.39
Table 11. Total Estimated Black Population by Selected Age Groups and Gender, by Zip Code Tabulation A. (ZCTA), Hernando County and Florida, 2016-2020.	rea
Table 12. Total Estimated Hispanic Population by Selected Age Groups and Gender, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020.	
Table 13. Total Estimated Population in Group Quarters, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020.	.45
Table 14. Total Estimated Population of Grandparents as a Householder with Grandchildren Under 18 Yea of AGe Living With Them and Responsibility by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020.	
Table 15. Total Estimated Population of Grandparents as a Householder with Grandchildren Under 18 Year of Age Living With Them and Having Responsibility by Presence of Parent by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020.	
Table 16. Total Estimated Families and Average Family Size by Zip Code Tabulation Area (ZCTA), Hernand County and Florida, 2016-2020	
Table 17. Total Estimated Households and Average Household Size by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020.	.49
Table 18. Total Estimated Veterans Population by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020.	
Table 19. Estimated Number and Percent of Population 5 Years and Older and How Well They Speak England What Other Languages They Speak Hernando County and Florida, 2016-2020	ish 51

Table 20. Life Expectancy by Gender, By Race, By Ethnicity and Year, Hernando County and Florida, 2014-202053
Table 21. Number and Percent of Persons in Poverty, by Selected Ages, Hernando County and Florida, 2016-202055
Table 22. Estimated Number and Percent of Indviduals and Children in Poverty in the Past 12 Months, By Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-202056
Table 23. Estimated Number and Percent of Individuals by Detailed Levels in Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020
Table 24. Estimated Number and Percent of Individuals by Age and by Selected Levels of Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-202058
Table 25. Estimated Number and Percent of Persons by Gender by Selected Levels of Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-202060
Table 26. Estimated Number and Percent of Persons by Race and Ethnicity For Those in Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-202061
Table 27. Estimated Number and Percent of Households and Various Types of Family Households With Income in Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020
Table 28. Estimated Number and Percent of Family Households by Level of Poverty in the Past 12 Months, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-202064
Table 29. Number of Households, Median Household Income, Percent of ALICE Households and Households in Poverty by Type of Household, Household Survival Budget by Type, 2018
Table 30. Median Household Income by Race, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-202067
Table 31. Mean (Average) Household Income by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-202068
Table 32. Per Capita Income by Race, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-202070
Table 33. Federal Poverty Guidelines by Number of Persons in Family/Household, 202271
Table 34. Estimated Family Income in the Past 12 Months by Detailed Levels of Income, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-202072
Table 35. Estimated Household Income in the Past 12 Months by Detailed Levels of Income, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-202075
Table 36. Unemployment Rates by Year, Hernando County and Florida, 2010-202079
Table 37. Total Number of Civilian Population In the Labor Force and The Unemployment Rate, Hernando County and Florida, 2016-202079
Table 38. Estimated Number and Percent of the Population 25+ Years of Age, by Level of School Completed and By Gender, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-202080 Table 39. Percent of High School Graduation and Dropout Rates by School Year, Hernando County and
Florida, 2016-17-2020-2183

Table 40. Number and Percent of Kindergartners and 7th Graders Immunized, Hernando County and Florida, 2014-202184
Table 41. Food Insecurity Percent and Child Food Insecurity Percent, Hernando County and Florida, 2015-201985
Table 42. Number of Non-Governmental Businesses by Size of Business, by County, Hernando County and Florida, 202085
Table 43. Number of Retail and Service Non-Governmental Businesses by Selected Types, Hernando County and Florida, 2020
Table 44. Various Housing Data for Hernando County and Florida, 2016-202086
Table 45. Number and Percent of Total Population With Community Water Supplies and Total Population with Flouridated Water Supplies, Hernando County and Florida, 2015-201988
Table 46. Selected Indicators for Healthy Food and Healthy Living, Hernando County and Florida, 2017-201988
Table 47. Number and Percent of Students Eligible for Free or Reduced Lunch By Grade Or School Level, Hernando County and Florida, 2015-202189
Table 48. Number and Percent of WIC Eligibles and Those Served for Hernando County and Florida, 2014-202190
Table 49. Percent of WIC Children 2 Years and Older Who Are Overweight or Obese, Hernando County and Florida, 2016-202191
Table 50. Number of Food Assistance Clients and Households For December of Each Year, by Year and Percent of Total Population or Households, Hernando County and Florida, 2015-202192
Table 51. Number of TANF Clients and Families by Year and Percent of Total Population, Hernando County and Florida, 2015-202193
Table 52. Number of Medicaid Eligibles and Percent of Total Population by Age Groups, Hernando County and Florida as of December of Each Year, 2017-202194
Table 53. Median Monthly Medicaid Enrollment Numbers and Percent of Population for Hernando County and Florida, 2011-202195
Table 54. Estimated Number and Percent of Households With Workers Age 16 and Over by Number of Available Vehicles and Method of Transportation to Work, Hernando County and Florida, 2016-202096 Table 55. Percent of Households with Workers Age 16 and Over by Travel Time to Work, Hernando County and Florida, 2016-2020
Table 56. Rate Per 1,000 Population of Incarcerations, Hernando County and Florida, 2017-202197
Table 57. Number and Rate Per 100,000 19+ Population for Inmate Admissions, Hernando County and Florida, 2017-202198
Table 58. Number and Percent Recidivism, Hernando County and Florida, 2015-201798
Table 59. Total Number of Voter Registrations by County, Hernando County and Florida, As of August 31, 202299
Table 60. Total Number of Voting Activity by County, Hernando County and Florida, For the 2018 General Election

Table 61. Hernando County Top 10 Rankings for Causes of Deaths by Race and Ethnicity and How Florida Ranks for 2019-2021
Table 62. Hernando County Top 10 Rankings for Causes of dEath by Gender and How Florida Compares, 2019-2021101
Table 63. Hernando County Top 10 Rankings for Causes of Deaths by Age Groups and How Florida Compares, 2019-2021102
Table 64. Top 10 Causes of Death Rankings for HErnando County and How Florida Ranks Against Each Other, 2019-2021. *
Table 65. Crude and Age-Adjusted Death Rates Per 100,000 Population by Race and Ethnicity for All Causes of Deaths, Hernando County and Florida, 2019-2021104
Table 66. Total Number of Deaths and Percent of Total Deaths For Hernando county and Florida, Based on the 2019-2021 Ranking for All Races For Hernando County105
Table 67. Crude and Age-Adjusted Death Rates Per 100,000 Population For All Races and Hispanics By Selected Causes of Deaths, Hernando County and Florida, 2019-2021106
Table 68. Crude and Age-Adjusted Death Rates per 100,000 Population for White and Black Races by Selected Causes of Deaths, Hernando County and Florida, 2019-2021107
Table 69. Top 10 Causes of Death Rates for All Races, Hernando County and Florida, 2017-2021. *108
Table 70. Top 10 Causes of Death Rates for White Races, Hernando County and Florida, 2017-2021111
Table 71. Top 10 Causes of Death Rates for Black Races, Hernando County and Florida, 2017-2021114
Table 72. Top 10 Causes of Death Rates for Hispanics, Hernando County and Florida, 2017-2021117
Table 73. Top 10 Causes of Death Rates for Females, Hernando County and Florida, 2017-2021. *
Table 74. Top 10 Causes of Death Rates for Males, Hernando County and Florida, 2017-2021. *
Table 75. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for All Causes of Deaths, by Zip Code, Hernando County and Florida, 2019-2021126
Table 76. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Heart Disease Deaths, by Zip Code, Hernando County and Florida, 2019-2021127
Table 77. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Cancer Deaths, by Zip Code, Hernando County and Florida, 2019-2021128
Table 78. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Unintentional Injuries Deaths, by Zip Code, Hernando County and Florida, 2019-2021129
Table 79. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Chronic Lower
Respiratory Disease(CLRD), by Zip Code, Hernando County and Florida, 2019-2021130
Table 80. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Alzheimer's Disease Deaths, by Zip Code, Hernando County and Florida, 2019-2021131
Table 81. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Diabetes Deaths, by
Zip Code, Hernando County and Florida, 2019-2021132
Table 82. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Stroke Deaths, by
Zip Code, Hernando County and Florida, 2019-2021133
Table 83. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for COVID-19 Deaths,
by Zip Code, Hernando County and Florida, 2019-2021134

Table 84. Crude and Age-Adjusted Death Rates per 100,000 Population for All Races for Hypertension Deaths, by Zip Code, Hernando County and Florida, 2019-2021135
Table 85. Crude Rates for Selected Causes of Death per 100,000 Population for 0-17 Years of Age (YOA),
Hernando County and Florida, 2019-2021136
Table 86. Crude Rates for Selected Causes of Death per 100,000 Population for 18-44 Years of Age (YOA), Hernando County and Florida, 2019-2021136
Table 87. Crude Rates for Selected Causes of Death per 100,000 Population for 45-64 Years of Age (YOA), Hernando County and Florida, 2019-2021137
Table 88. Crude Rates for Selected Causes of Death per 100,000 Population for 65-84 Years of Age (YOA), Hernando County and Florida, 2019-2021
Table 89. Crude Rates for Selected Causes of Death per 100,000 Population for 85+ Years of Age (YOA), Hernando County and Florida, 2019-2021139
Table 90. Number of Infant Deaths and Rates for Selected Causes By Year, Hernando County and Florida, 2017-2021140
Table 91. Neonatal Death Rates and Postneonatal Deaths and Maternal Deaths and Rates per 1,000 Total Live Births by Year, Hernando County and Florida, 2017-2021142
Table 92. All Causes Of Death Years of Potential Life Lost (YPLL) Under 75 By Race and Ethnicity, Rates Per 100,000 Population, Hernando County and Florida, 2017-2021143
Table 93. All Causes Of Death Years of Potential Life Lost (YPLL) Under 75 by Gender, Rates Per 100,000 Population, Hernando County and Florida, 2017-2021144
Table 94. Selected Causes of Death, Years of Potential Life Lost (YPLL) Under 75, Rates Per 100,000 Population Hernando County and Florida, 2019-2021145
Table 95. Age Adjusted Deaths from COVID-19, Rates Per 100,000 Population by Race, Ethnicity and Gender, Hernando County and Florida, 2020-2021146
Table 96. Crude Death Rates and Age Adjusted Death Rates for Suicide Per 100,000 Population by Race and Ethnicity, Hernando County and Florida, 2010-2021.
Table 97. Number of Years of Potential Life Lost From Suicide and Rates Per 100,000 Population by Race and Ethnicity, Hernando county and Florida, 2010-2021149
Table 98. Number and Age Adjusted Death Rates Per 100,000 Population by Race and Ethnicity, by Type of Cancer, Hernando County and Florida, 2019-2021150
Table 99. Number and Age-Adjusted Death Rates Per 100,000 Population by Gender, by Type of Cancer, Hernando County and Florida, 2019-2021152
Table 100. Age-Adjusted Rates Per 100,000 Population for Selected Types of Cancer Incidences by Race and Ethnicity, Hernando County and Florida, 2017-2019.
Table 101. Number and Age-Adjusted Death Rates Per 100,000 Population by Race and Ethnicity by Type of Heart Disease, Hernando County and Florida, 2019-2021
Table 102. Number and Age-Adjusted Death Rates Per 100,000 Population by Gender, By Type of Heart Disease, Hernando County and Florida, 2019-2021157
Table 103. Medicare Severity-Diagnosis Related Group(MSDRGS) Used to Define the Hospitalizations for Mental Health Issues

Table 104. Number and Rate of Hospitalizations and ED Visits per 1,000 Population for Mental Health
Reasons for Selected Age Groups for Hernando County and Florida, 2017-2021
Table 105. Number and Rate of Hospitalizations and Emeregency Department Visits per 1,000 Population for Mental Health Reasons by Zip Code, Hernando County and Florida, 2019-2021. *
Table 106. Selected Mental Health Indicators for All Middle and High School Students, Hernando County and
Florida, 2014-2022
Table 107. Comparison of Selected Behavioral Indicators About Health Status and Quality of Life for
HErnando County and Florida, 2017-2019163
Table 108. Number of Involuntary Exam Initiations (Baker Acts) by Selected Age Groups, Hernando County and Florida, 2015-2020164
Table 109. Number and Percent of Involuntary Exam Initiations (Baker Acts) by Initiation Type, Hernando County and Florida, 2015-2020165
Table 110. Number and Percent of Involuntary Exam Initiations(Baker Acts) by Place Seen and Type of Profession who Initiated Exam, Hernando County and Florida, 2019-2020
Table 111. Percent of Adults Who Engage in Heavy or Binge Drinking, Hernando County and Florida, Selected Years 2002-2019
Table 112. Number and Age-Adjusted Rate per 100,000 Population of Selected Liver Disease Deaths, By Race and Ethnicity, Hernando County and Florida, 2016-2020.
Table 113. Number and Rate Per 100,000 Population of Various Motor Vehicle Traffic Crashes And Alcohol-Confirmed Motor Vehicle Traffic Crashes, Injuries and Fatalities, Hernando County and Florida, 2016-2020.
Table 114. Number and Rate Per 100,000 Population of Various Motor Vehicle Traffic Crashes And Drug-Confirmed Motor Vehicle Traffic Crashes, Injuries and Fatalities, Hernando County and Florida, 2016-2020.
Table 115. Number and Rate Per 100,000 Population for Non-Fatal Overdose Emergency Department (ED) Visits and Hospitalizations, Hernando County and Florida, 2021171
Table 116. Number and Age-Adjusted Death Rates Per 100,000 Population for Opioid and Drug Overdose Deaths, Hernando County and Florida, 2020172
Table 117. Number and Rate Per 100,000 Population for Drug Arrests by Age Group, HErnando County and Florida, 2014-2020
Table 118. Percent of youth (11-17) by Selected Attitudes About Substance Use, HErnando County and Florida, 2016-2020174
Table 119. Total Number and Rate per 100,000 Population for Domestic Violence Offenses by Type,  Hernando County and Florida, 2020
Table 120. Total Number and Rate per 100,000 Population for All Domestic Violence Offenses and Forcible Sex Offenses, Hernando County and Florida, 2015-2020175
Table 121. Total Births and Birth Rates Per 1,000 Total Population by Race and Ethnicity, By Zip Code, Hernando County and Florida, 2017-2021177
Table 122. Total Number of Infant Deaths and Rates Per 1,000 Live Births by Race and Ethnicity, by Zip
Code, Hernando County and Florida, 2017-2021

Table 123. Total Number and Percent of Low Birthweight Births by Race and Ethnicity, by Zip Code, Hernando County and Florida, 2017-2021
Table 124. Total Number and Percent of Births That Received Care in the First Trimester by Race and Ethnicity, by Zip Code, Hernando County and Florida, 2017-2021183
Table 125. Total Number and Percent of Births That Were to Teens (15-17 Years Old) by Race and Ethnicity, by Zip Code, Hernando County and Florida, 2017-2021
Table 126. Total Number and Percent of Births That Had Medicaid as the Payor Source for All Races, by Zip Code, Hernando County and Florida, 2017-2021
Table 127. Total Number and Percent of Births That Mother Participated in WIC by Race and Ethnicity, by zip Code, Hernando County and Florida, 2017-2021189
Table 128. Comparison of Tobacco Use and Exposure Indicators by Race and Ethnicity For Hernando County and Florida, 2017-2019191
Table 129. Comparison of Youth (Ages 11-17) Tobacco Use and Exposure for Hernando County and Florida, 2022
Table 130. Comparison of Selected Weight and Activity Indicators for Hernando County and Florida, 2017-2019
Table 131. Comparison of Selected DIsability Indicators for HErnando County and Florida, 2016-2019 194 Table 132. Total Number of STD's by Type and Rates Per 100,000 Population, Hernando County and Florida, 2016-2020
Table 133. Number of HIV/AIDS Diagnoses and Rates Per 100,000 Population, Hernando County and Florida 2016-2021
Table 134. Total Number of Tuberculosis and Hepatitis Cases By Type and Rates Per 100,000 Population, Hernando County and Florida, 2016-2021
Table 135. Comparison of Selected HIV/AIDS Screening Indicators by Race and Ethnicity for Hernando County and Florida, 2017-2019200
Table 136. Number of Cases for COVID-19 for Hernando County and Florida, As of October 6, 2022
Table 138. Number and Percent of Kindergartners and 7 <sup>th</sup> Graders Immunized, Hernando County and Florida, 2017-2021202
Table 139. Number and Rate Per 100,000 Population of Pertussis, Hernando County and Florida, 2015-2020202
Table 140. Comparison of Selected Immunization Indicators for Hernando County and Florida, 2017-2019.
Table 141. Comparison of Selected Diseases Indicators for Hernando County and Florida, 2017-2019 204  Table 142. Comparison of Asthma Indicators by Race and Ethnicity for Hernando County and Florida, 2016
Table 143. Comparison of Colorectal Cancer Screening Indicators by Race and Ethnicity For Hernando County and Florida, 2016

Table 144. Comparison of Selected Prostate Cancer Screening Indicators by Race and Ethnicity For Hernando County and Florida, 2016
Table 145. Comparison of Selected Women's Health Cancer Screening Indicators by Race and Ethnicity For
Hernando County and Florida, 2013, 2016
Table 147. Comparison of Cardiovascular Disease Indicators by Race and Ethnicity for Hernando County and Florida, 2017-2019210
Table 148. Comparison of Cholesterol Awareness Indicators by Race and Ethnicity for Hernando County and Florida, 2017-2019211
Table 149. Comparison of Diabetes Indicators by Race and Ethnicity for Hernando County and Florida, 2017-2019212
Table 150. Comparison of Hypertension Indicators by Race and Ethnicity for Hernando County and Florida, 2017-2019213
Table 151. Comparison of Selected Access Indicators by Race and Ethnicity for Hernando County and Florida, 2017-2019214
Table 152. Comparison of Selected Access Indicators, All Middle and High School Students by Race and Ethnicity for Hernando County and Florida, 2014-2022215
Table 153. HPSA Shortage Area and MUA by Type and Score, Hernando County, 2022216
Table 154. Number and Percent Uninsured By Selected Age Groups for All Income Levels, Hernando County and Florida, 2016-2020217
Table 155. Estimated Number and Percent of the Total Civilian Noninstitutionalized Population That Are Insured and Uninsured, by Zip Code Tabulation Area (ZCTA), Hernando County and Florida, 2016-2020218

#### Data Comparison Table Crosswalk

The data in this 2022 Hernando County Community Health Assessment (CHA) Technical Appendix is organized by conventional categories that group indicators by common themes. Population health is complex and can be influenced by many intersecting factors, as such, an indicator presented in one category may also pertain to numerous topics. In addition, CHAs can align with and mutually inform other assessments and plans to better understand and address population health issues at the community, region, and state levels.

The tables below index CHA indicators by main and sub-categories with the social determinants of health, Health Equity data, and the Florida Department of Health's 2022-2026 State Health Improvement Plan (SHIP). Please refer to the table numbers listed to find the corresponding data set.

Social Determinants of Health						
Main Category	Table Number For Data					
	Enrollment in Higher Education	38				
Education Access and Quality	High School Graduation	39				
	Language and Literacy	19				
	Employment	36, 37				
Economic Stability	Food Insecurity	41				
Economic Stability	Housing	44				
	Poverty	21, 22, 23, 24, 25, 26, 27, 28				
Social and Community Context	CIVIC Participation	59, 60				
Social and Community Context	Incarceration	56, 57				
	Access to Healthy Foods	46				
Neighborhood and Built	Crimes and Violence	56, 57, 58				
Environment	Environmental Conditions	45, 46				
	Quality of Housing	44				
Health Care Access and Quality	Access to Health Care	151, 152				
nearth care Access and Quanty	Access to Primary Care	151, 152, 156, 157, 158				

Health Equity Indicators

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates for 2016-2020, the 2020 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

Hernando County	190,700	2,107	1.1		
Florida	21,216,924	431,523	2.0		

The group quarters population includes all people not living in households. Two general categories of people in group quarters are recognized by the Census: (1) the institutionalized population and (2) the noninstitutionalized population. The institutionalized population includes people under formally authorized, supervised care or custody in institutions at the time of enumeration; such as correctional institutions, nursing homes and juvenile institutions. The noninstitutionalized population includes all people who live in group quarters other than institutions, such as college dormitories, military quarters, and group homes. Also included are staff residing at institutional group quarters.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates for 2016-2020, the 2020 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.

Although the American Community Survey(ACS) produces population, demographic and housing unit estimates for 2016-2020, the 2020 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data.

A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live separately from any other people in the building and that have a direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates for 2016-2020, the 2020 Census provides the official counts of the population and housing units for the nation, counties, cities, and towns. The American Community Survey is a sample of data taken over a time period and should not be compared to other sources of data. <sup>\*</sup> A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone.

### ALICE DATA

TABLE 29. NUMBER OF HOUSEHOLDS, MEDIAN HOUSEHOLD INCOME, PERCENT OF ALICE HOUSEHOLDS AND HOUSEHOLDS IN POVERTY BY TYPE OF HOUSEHOLD, HOUSEHOLD SURVIVAL BUDGET BY TYPE, 2018.

#### **FOOD INSECURITY**

### TABLE 41. FOOD INSECURITY PERCENT AND CHILD FOOD INSECURITY PERCENT, HERNANDO COUNTY AND FLORIDA, 2015-2019.

	Food Insecurity		Child Food Ins	ecurity Percent
Year	Hernando County	Florida	Hernando County	Florida
2015	14.9	15.1	25.2	22.7
2016	14.0	13.9	23.0	20.0
2017	13.0	13.4	21.3	20.4
2018	13.8	13.0	21.6	19.4
2019	15.2	12.0	24.3	17.1

Please Note: Food insecurity rates are estimated by Feeding America, a national nonprofit network of food banks that operates in every county in the country. Their estimates are made using a tested model based on Current Population Survey (CPS) food security questionnaire data, and it takes into account – among other things – unemployment rates, poverty rates, and disability rates.

### Mortality

Florida comparison data is shown as well. Please note: this data should not be compared to the tables where zip codes are shown. The County numbers in the zip code tables might not match the county numbers in the previous tables due to different sources being used. The rates might be different as well due to different population source data.

### Maternal and Infant Health

Various maternal and infant health data is presented at the zip code and county level over an extended time period. Ethnicity data is presented in the same tables as the data when broken out by race; please note however, that Hispanics are not considered a race but a subset of the races. Therefore, Hispanics should not be added in with the White and Black to get a total. Not all races are shown in the table, so the sum of these two may not equal what is shown in the total column.

### **BIRTHS**

# **COUNTY HEALTH RANKINGS**

# TABLE 176. COUNTY HEALTH RANKINGS FOR HERNANDO COUNTY COMPARED TO FLORIDA, 2022.

	Hernando County	Florida
HEALTH OUTCOMES (Rank of 67)	33	
Length of Life (Rank of 67)	40	
Premature death	9,194	7,478
Quality of Life (Rank of 67)	34	
Poor or fair health (Percent)	21.7	17.8
Poor physical health days (Average Number)	4.7	4.0
Poor mental health days (Average Number)	5.2	4.5
Low Birthweight (Percent)	8.8	8.7
HEALTH FACTORS (Rank of 67)	34	
Health Behaviors (Rank of 67)	33	
Adult smoking (Percent)	20.9	15.3
Adult obesity (Percent)	33.1	26.3
Food Environment Index	6.9	7.0
Physical inactivity (Percent)	31.0	25.9
Access to exercise opportunities (Percent)	76.3	86.9
Excessive drinking (Percent)	21.7	20.2
Alcohol-impaired driving deaths (Percent)	20.0	22.0
Sexually transmitted infections rate (Rate Per 100,000 Population)	302.7	515.9
Teen birth rate (Per 1,000 Female Population 15-19 Years of Age)	18.7	18.4

<sup>\*90</sup>th percentile, i.e., only 10% are better. Blank (---)values reflect unreliable or missing data. Source: University of Wisconsin Population Health Institute, County Health Rankings website http://www.countyhealthrankings.org, 2022.

# TABLE 176 CONT. COUNTY HEALTH RANKINGS FOR HERNANDO COUNTY COMPARED TO FLORIDA, 2022.

	County	Florida
Clinical Care (Rank of 67)	34	
Uninsured adults (Percent)	15.6	16.4
Primary care physicians	1,829:1	1,372:1
Dentists	2,761:1	1,631:1
Mental health providers	1,142:1	546:1
Preventable hospital stay rate (Per 100,000 Medicare Enrollees)	4,768.0	4,203.0
Mammography screening (Percent)	42.0	44.0
Flu vaccinations (Percent)	43.0	45.0
Social & Economic Factors (Rank of 67)	39	
High school graduation (Percent)	88.4	88.5
Some college (Percent)	59.8	63.6
Unemployment (Percent)	8.1	7.7
Children in poverty (Percent)	20.1	17.2
Income Inequality (Ratio)	4.2	4.6
Children in single-parent households (Percent)	21.5	28.4
Social Associations rate(Per 10,000 Population)	6.0	7.0
Violent crime rate (Per 100,000 Population)	257.5	484.4
Injury death rate (Per 100,000 Population)	119.2	86.7
Physical Environment (Rank of 67)	18	
Air Pollution Particulate Matter Days	8.0	7.8
Drinking water violations (Presence of violation)	No	
Severe housing problems (Percent)	13.2	19.2
Driving alone to work (Percent)	78.9	77.7
Long commute - driving alone (Percent)	41.4	42.7

<sup>\*90</sup>th percentile, i.e., only 10% are better. Blank (---)values reflect unreliable or missing data. Source: University of Wisconsin Population Health Institute, County Health Rankings website http://www.countyhealthrankings.org, 2022.

# **Technical Notes**

### 2020 U.S. CENSUS DATA

The 2020 U.S. Census data provides the official counts of the population and housing units for the nation, counties, cities and towns. Due to the COVID Pandemic release of all of the 2020 data has been postponed so most of the data shown here in the technical appendix is from the latest 5-Year American Community Survey Estimates.

### **ALICE DATA**

ALICE is an acronym for Asset Limited, Income Constrained, Employed. The United Way report provides information o help with the understanding of who is struggling in our communities. Please check out <a href="https://www.UnitedWayALICE.org">www.UnitedWayALICE.org</a> for more detailed information.

### AMERICAN COMMUNITY SURVEY DATA

The American Community Survey (ACS) data is released in one-year or five-year estimates depending on what level of data is shown. Traditionally, short forms and long forms were sent out to addresses every 10 years. The American Community Survey was designed to replace the long form and it is now sent to only a sample of the population once each year instead of every ten years so that ongoing estimates may be available. The ACS reports contain estimates, not the official counts. The U.S. Census states that you should not compare 2010 or 2020 Census numbers to ACS data; it also suggests that you only compare ACS data when the data are different sets of years. Therefore, to compare 2005-2009 ACS data you would not compare it with any other set until the 2010-2014 data is released. Three year estimates have been released in the past, but are no longer being released. Individual sets of years of data for the ACS may be compared to each other. Please remember that the ACS data are not the actual count rather, it is a sample of the population over the selected time period. For more detailed information on the American Community Survey please refer to <a href="https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data/2014.html">https://www.census.gov/programs-surveys/acs/guidance/comparing-acs-data/2014.html</a>.

Since previous data that was collected on the old long forms were not collected during the 2010 official counts, there is no data from that point for education levels and income information in the 2010 counts. The income information and education data estimates are shown from the latest ACS. In addition, various other data from the latest ACS are included in this report to show the latest estimates. To be able to show Zip Code Tabulation Area level data, data from the five-year estimates has to be utilized.

# **AVAILABILITY OF SERVICES**

To show various services that are available to persons in the county, rates are shown for the acute care hospital beds, nursing home beds, various types of doctors and dentists and dental services.

# AVOIDABLE DISCHARGES/INPATIENT HOSPITALIZATIONS

Avoidable discharges are based on the ACS Conditions study done by John Billings. Only discharges for the less than 65 population are looked at. The codes are listed at <a href="http://wagner.nyu.edu/chpsr/acs">http://wagner.nyu.edu/chpsr/acs</a> codes.pdf.

# AVOIDABLE EMERGENCY DEPARTMENT (ED) VISITS

Avoidable emergency department visits are based on the NYU Algorithm. ED visits are classified into four categories based on the NYU Algorithm: (1) Non Emergent, (2) Emergent/Primary Care Treatable, (3) Emergent/Emergency Department Care Required But Preventable/Avoidable and (4) Emergent/Emergency Department Care Required Not Preventable/Avoidable. Therefore the first three categories were combined to create the total number of Avoidable ED Visits. This data is based on all ED visits no matter what the age of the patient.

# BEHAVIORAL RISK FACTOR SURVEILLANCE SYSTEM (BRFSS) DATA

The Florida Department of Health conducts the Behavioral Risk Factor Surveillance System (BRFSS) with financial and technical assistance from the Centers for Disease Control and Prevention (CDC). This state based telephone surveillance system collects self-reported data on individual risk behaviors and preventative health practices related to the leading causes of morbidity and mortality in the United States. BRFSS indicators are summarized only at the state and county level.

### **BIRTHS**

Various birth statistics and infant deaths are shown for the maternal and child data. Data by race is shown for comparison. Low birthweight births, very low birthweight births are shown as well as teen birth rates. Trimester of care services and when they were started are also shown for comparison. Payor sources for the deliveries are shown as well. Data is shown by zip code levels when available. Rates are mostly based on per 1,000 live births unless stated as a percent of total births or per a certain stated population.

## **BUSINESSES**

Data for business sizes and selected types are shown from the latest County Business Patterns produced from the U.S. Census Bureau.

## **COUNTY HEALTH RANKINGS**

The County Health Rankings are a key component of the Mobilizing Action Toward Community Health (MATCH) collaboration project between the Robert Wood Johnson Foundation and the University of Wisconsin Population Health Institute. Counties receive a rank relative to the health of other counties in the state. Counties having high ranks, e.g. 1 or 2, are considered to be the "healthiest". Health is viewed as a ultifactorial construct. Counties are ranked relative to the health of other counties in the same state on the following summary measures:

- I. Health Outcomes--rankings are based on an equal weighting of one length of life (mortality) measure and four quality of life (morbidity) measures.
- II. Health Factors--rankings are based on weighted scores of four types of factors:

- a. Health Behaviors (9 measures)
- b. Clinical Care (7 measures)
- c. Social and Economic (8 measures)
- d. Physical Environment (5 measures)

For more detailed information please check <a href="http://www.countyhealthrankings.org/ranking-methods">http://www.countyhealthrankings.org/ranking-methods</a>.

### COVID-19

COVID data has been added to the technical appendix. The ICD-10 Code U07.1 was added in March of 2020. Therefore data is from that point on in this report. When pulling COVID data from the inpatient and emergency department visit data, all possible fields where this code could be found were pulled.

### CRUDE VERSUS AGE-ADJUSTED MORTALITY RATES

Both the crude and the age-adjusted death rates (AADR) are displayed in this report. Crude rates are merely the actual number of deaths for a given cause for a desired population divided by total number in the desired population and then multiplied by 100,000 to get the rate per 100,000 population, while AADR represent crude rates adjusted to standardize the population distribution effects on the rate.

Although useful for certain purposes, the crude death rate as a comparative measure has a major shortcoming. It is a function of the age distribution of the population at risk. For example, the population at risk in one county may be primarily elderly persons ages 65 and older while the population at risk in another county may be primarily of persons ages 40 to 50. Crude rates are recommended when a summary measure is needed and it is not necessary or desirable to adjust for other factors.

The frequency with which health events occur is almost always related to age. In fact, the relationship of age to risk often dwarfs other important risk factors. For example, acute respiratory infections are more common in children of school age because of their immunologic susceptibility and exposure to other children in schools. Chronic conditions, such as arthritis and atherosclerosis, occur more frequently in older adults because of a variety of physiologic consequences of aging. Mortality rates tend to increase after the age of 40.

Because the occurrence of many health conditions is related to age, the most common adjustment for public health data is age adjustment. The age-adjustment process removes differences in the age composition of two or more populations to allow comparisons between these populations independent of their age structure.

The age-adjusted death rate is a summary measure that eliminates the effect of the underlying age distribution of the population. The result is a figure that represents the theoretical risk of mortality for a population, if the population had an age distribution identical to that of a standard population. For example, a county's age-adjusted death rate is the weighted average of the age-specific death rates observed in that county, with the weights derived from the age distribution in an external population standard, such as the U.S. Population.

Age-adjustment then allows for the comparison of two distinct populations (for example, Hamilton County versus Florida) which most likely have differing age distributions. The age effects are in essence removed

from the rates and the age-adjusted death rate then no longer reflects the actual death rate but is an indicator rate that can be used for relative comparisons.

In the past, the National Center for Health Statistics (NCHS) age-adjusted rates using the US 1940 standard population. Other agencies used the U.S. 1970 Standard. Beginning with 1999 data, federal agencies began age-adjusting to the U.S. 2000 Standard Million Population.

Zip Code level crude and age-adjusted rates are shown in a separate tables and the county rates and Florida rates are shown as well. These data should not be compared to tables that have only county and Florida rates in them. Population sources are different and these rates should not be compared.

# DENTAL/ORAL HEALTH

Hospitalizations and Emergency Department (ED) Visits are shown for dental/oral health reasons. ICD 9 Codes 520-529 were used to pull the emergency department visits and the discharges due to dental/oral health issues for data up to September 30, 2015. All possible fields were used in categorizing these visits. The following ICD 9 Codes were used to categorize dental/oral health as preventable for data up to September 30, 2015: 520.5, 520.6, 520.7, 521.0, 521.1-521.8, 522.0, 522.1, 522.4-522.8, 523.0-523.9, 524.3-524.6, 525.1, 525.3, 525.9, 526.4, 526.5, 528.0-528.3, 528.5-528.7, 528.9 and 529.0. For data from October 1, 2015 and forward ICD 10 Codes K00-K14 were used to pull off data for dental/oral health reasons. From the same time frame, ICD 10 codes K02, K03, K04, K05, K060, K061, K062, K08, K12, K13, M276, A690, and K098 were the preventable dental/oral health issues.

## EDUCATION LEVELS AND LANGUAGE SPOKEN AT HOME

The number of persons by level of school completed is shown as well as the language spoken in the home and how well English is spoken.

## EMERGENCY DEPARTMENT (ED) DATA

For tables with emergency department data please note that this data only includes emergency department visits in which emergency department registration occurs and the patient is not admitted for inpatient care at the reporting entity.

### **ENVIRONMENTAL HEALTH**

Water supply and fluoridation data is shown for environmental issues. Various access to healthy food data is included in the report. Recreation and fitness facility data is also included.

### HEALTH PROFESSIONAL SHORTAGE AREAS (HPSA) DATA

HPSAs may be designated as having a shortage of primary medical care, dental or mental health providers. They may be urban or rural areas, population groups or medical or other public facilities. Possible types of HPSA Designations in the area include:

Geographic Single County - Where the whole county is designated as HPSA.

Geographic Service Area - Where portions of a county, or portions of multiple counties are designated as a geographic HPSA.

Population Group - Where a population within an area is designated as a HPSA.

Correctional Institutions - Federal and State prisons and youth detention facilities.

Comprehensive Health Centers - Entities receiving Section 330 funds to operate comprehensive health centers.

FQHC Look-a-Like - Federally Qualified Health centers certified as meeting 330 requirements but not receiving grant funds.

Rural Health Clinic - Certified as Rural Health Clinics by the Centers for Medicare and Medicaid Services.

HPSA Scores are developed for use by the National Health Service Corps in determining priorities for assignment of clinicians. Scores range from 1 to 25 for primary care And Mental Health, 1 to 26 for dental health. The higher the score, the greater the priority. All Federally Qualified Health Centers and those Rural Health Clinics that provide access to care regardless of one's ability to pay, receive automatic facility HPSA designation. These facilities may have a HPSA score of 0.

#### HOUSEHOLD TYPES

There are various types of households. A household includes all of the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room occupied (or if vacant, intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live separately from any other people in the building and that have a direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living quarters.

A family includes a householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption. All people in a household who are related to the householder are regarded as members of his or her family. A family household may contain people not related to the householder, but those people are not included as part of the householders family in census tabulations. Thus, the number of family households is equal to the number of families, but family households may include more members than do families. A household can contain only one family for purposes of census tabulations. Not all households contain families since a household may be comprised of a group of unrelated people or of one person living alone. For a more detailed explanation please see <a href="http://www2.census.gov/programs-">http://www2.census.gov/programs-</a>

surveys/acs/tech\_docs/subject\_definitions/2014\_ACSSubjectDefinitions.pdf

## **IMMUNIZATIONS**

The number of kindergartners and seventh graders that have been immunized are reported.

#### **INCOMES**

Various income data is shown by zip codes and levels from the latest 5-year ACS estimates.

## **INFECTIOUS DISEASES**

Rates for gonorrhea, chlamydia and infectious syphilis, vaccine preventable diseases, and HIV and AIDS cases are shown.

## INPATIENT HOSPITALIZATIONS

A general overview of discharges and patient days are shown by Zip Code level. Payor sources for these discharges are also shown for the county residents. The top leading MSDRGs are also shown for the county residents.

# INTERNATIONAL STATISTICAL CLASSIFICATION CODES (ICD)

This is the international "standard diagnostic tool for epidemiology, health management and clinical purposes". ICD 9 and 10 codes were used in various tables in this report due to the change from ICD 9 to ICD 10 in October 2015.

## LICENSED HEALTH CARE FACILITIES AND PHYSICIANS

Various types of health care facilities that are available in the areas are listed. Dentists and selected types of physicians are also listed.

### MEDICALLY UNDERSERVED AREAS & POPULATIONS (MUAS & MUPS) DATA

MUAs may be a whole county or a group of contiguous counties, a group of county or civil divisions or a group of urban census tracts in which residents have a shortage of personal health services. MUPs may include groups of persons who face economic, cultural or linguistic barriers to health care.

Possible types of MUAs & MUPs Designations in the area include.

C = Whole County

T = Census Tract

MUAs And MUPs score is the Index of Medical Underservice (IMU) score. The lowest score (highest need) is 0; And the highest score (lowest need) is 100.

Source. <a href="http://bhpr.hrsa.gov/shortage/muadatadict.htm">http://bhpr.hrsa.gov/shortage/muadatadict.htm</a>

### MENTAL HEALTH

Hospitalizations and Emergency Department (ED) Visits are shown for mental health reasons. MSDRGs 876, 880-883, 885-887, 894-897 are used for hospitalizations. For data up to September 30, 2015, ICD 9 Codes 290-316.99 were used in determining mental health reasons to the emergency department after September 30, 2015 and forward, ICD 10 codes F00-F69 and F80-F99 were used to pull the mental health visits.

Involuntary Exam Initiations (Baker Act) data is shown as well for the mental health section. Domestic Violence data is also shown.

### **POVERTY**

The U.S. Census Bureau provides poverty estimates through the Small Area Income and Poverty Estimates (SAIPE). Data shown is for all ages in poverty as well as children under age 18. To compare poverty at the Zip Code level, the ACS estimates are shown for various age groups and various levels of poverty.

## SMALL AREA HEALTH INSURANCE ESTIMATES

In previous Small Area Health Insurance Estimate (SAHIE) releases, uninsured was defined from the Annual Social And Economic Supplement to the Current Population Survey (CPS ASEC) and the question was for being covered "Some Time During the Past Calendar Year". With the 2008 release from the Census, the CPS ASEC data were replaced with American Community Survey (ACS) data. The ACS health insurance question asks, "Is this person CURRENTLY covered by [specifically stated] health insurance or health coverage plans?" In 2010, the age group 50-64 was added to the various age group breakouts in the SAHIE. The Census does not recommend comparing the 2008 and newer data to previous-year SAHIE estimates.

### UNEMPLOYMENT

The latest unemployment monthly and yearly rates are shown for the county. This data is from the Florida Research and Economic Database.

## **ZCTAS AND ZIP CODES**

The United States Census Bureau collects data by United States Postal Service (USPS) zip codes. Based on zip code data the Census Bureau then aggregates Zip Code Tabulation Area (ZCTAs) from addresses contained within each block. This allows the aggregated data to be converted into areal feature datasets (ZCTAs). For complete information, please see <a href="http://www.census.gov/geo/reference/zctas.html">http://www.census.gov/geo/reference/zctas.html</a>.

Below is a table that shows all zip codes in the Hernando County and which zip codes are included in each county.

Zip Code	Percent of addresses in Hernando County	Post Office Box	Included With Another Zip Code
34601 Brooks ville	99.7	No	
34602 Brooks ville	100.0	No	
34603 Brooks ville	100.0	Yes	Will be combined with 34601
34604 Brooksville	100.0	No	
34605 Brooks ville	100	Yes	Will be combined with 34601
34606 Spring Hill	100.0	No	
34607 Spring Hill	100.0	No	
34608 Spring Hill	100.0	No	
34609 Spring Hill	100.0	No	
34611 Spring Hill	100.0	Yes	Will be combined with 34606
34613 Brooksville	100.0	No	
34614 Brooks ville	100.0	No	
34636 Istachatta	100.0	Yes	Will be combined with 34601
34661 Nobleton	100.0	No	

The following zip codes are partially located in Hernando County but are not considered a Hernando County Zip Code. Data for zip code addresses that are partially in Hernando County are not available and are not listed in the tables in this appendix.

33523 Dade City (Pasco County)	17.3		
33597 Webster (Sumter County)	16.8
